## INDEPENDENT ACCOUNTANT'S REPORT

Paxos Trust Company, LLC  
New York, NY 10011

We have examined Paxos Trust Company, LLC's (the "Company") below assertions. Paxos Trust Company, LLC's management is responsible for its assertions. Our responsibility is to express an opinion on management's assertions based on our examination. Management's assertions, which are summarized in the attached report, (hereafter referred to as the "Reserve Accounts Report"), which we examined are as follows:

- The Reserve Accounts Report refers to the total supply of Pax Dollar tokens ("USDP") as of September 16, 2022, and September 30, 2022 (collectively, the "Report Dates and Times") at 5:00 pm Eastern Time ("ET"). Such USDP, (which also represents the total circulating supply) as denoted under contract 0x8e870d67f660d95d5be530380d0ec0bd388289e1 at 18 decimals at 5:00 pm ET on the Report Dates and Times is 966,416,313.12 and 915,859,695.51, respectively, as reported by the Etherscan API and an internally maintained and operated node on the Ethereum network.
- The Reserve Accounts Report refers to the accounts held by the Company at U.S. insured depository institutions and debt instruments that are expressly guaranteed by the full faith and credit of the United States Government. The USD balance and, when applicable, amounts backed by U.S. Treasury Debt in the Reserve Accounts is at least equal to or greater than \$966,416,313.12 and \$915,859,695.51, respectively, at the Report Dates and Times to adequately support the total supply of outstanding USDP at the Report Dates and Times. This contemplates the impact of outstanding wires, deposits in transit or other reconciling items.
- The Reserve Accounts Report refers to the Company's Reserve Account holdings as of the Report Dates and Times at 5:00 pm ET, which includes the disclosure of the total fair value of the Company's asset holdings by asset type. Any amounts held in U.S. Treasury Debt include additional disclosures such as CUSIP and maturity date, as applicable.
- The total USDP supply, for which each USDP is assigned a redemption value, strictly pegged at 1:1 to the U.S Dollar by the Company, does not exceed the balance of the Reserve Accounts reported below.
- The Reserve Accounts Report refers to the Reserve Account holdings by asset class which does not violate the asset guidelines that were set forth by the New York Department of Financial Services ("NYDFS").

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertions are fairly stated, in all material respects. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertions whether due to fraud or error.

In performing our risk assessment, we considered the Company's internal controls relevant to the aforementioned assertions, in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we did not test the operating effectiveness of such controls and express no such opinion on such controls.

We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We direct your attention to the accompanying notes of the Reserve Accounts Report for risks and uncertainties related to cryptocurrencies and background information provided by management. We have not audited, reviewed or performed any procedures to provide assurance with respect to these notes. Accordingly, we provide no opinion, conclusion or any other form of assurance with respect to these accompanying notes to the Reserve Accounts Report.

The expressed examination opinion on the above assertions are limited solely to the Reserve Accounts Report at the Report Date and Time noted above. Any activity prior to or after the Report Dates and Times at 5:00 pm ET was not considered when testing the assertions described above. In addition, we have not performed any procedures or provided any level of assurance on the financial or non-financial activity of the Reserve Accounts on dates or times other than the Report Date and Time noted within this report.

In our opinion, management's assertions noted above are fairly stated as of the Report Dates and Times at 5:00 pm ET, in all material respects.

## **RESERVE ACCOUNTS REPORT**

---

2. The Reserve Accounts refers to the accounts held by the Company at U.S. insured depository institutions and debt instruments that are expressly guaranteed by the full faith and credit of the United States Government, which are either owned outright by Paxos or held pursuant to overcollateralized overnight reverse repurchase agreements. The USD balance in the Reserve Accounts is at least equal to or greater than \$966,416,313.12 and 915,859,695.51, respectively, at the Report Dates and Times. This contemplates the impact of outstanding wires, deposits in transit or other reconciling items.
3. This Reserve Accounts Report refers to the Company's Reserve Account holdings as of the Report Dates and Times at 5:00 pm ET, which includes the disclosure of the total fair value, calculated using the publicly available pricing as of the Report Dates and Times, of the Company's asset holdings by asset type as reported above. Any amounts held in U.S. Treasury Debt include additional disclosures such as CUSIP and maturity date, as applicable.
4. The total USDP supply, for which each USDP is assigned a redemption value of \$1 U.S. by the Company, does not exceed the balance of the Reserve Accounts reported above.
5. This Reserve Accounts Report refers to the Reserve Account holdings by asset class, which are in compliance with the approved reserve asset guidelines<sup>2</sup> as set forth by the NYDFS.

To the best of the knowledge and belief of the undersigned, the information contained in the Reserve Accounts Report as of the Report Dates and Times 5:00pm ET is accurate and complete.

  
Austin Campbell, Head of Portfolio Management

---

**1. BACKGROUND INFORMATION PROVIDED BY PAXOS TRUST COMPANY, LLC**

Paxos Trust Company, LLC (the “Company”) is a New York limited purpose trust company. The Company received its trust charter from the New York Department of Financial Services in 2015 and has been a long-time leader in both crypto asset services and the creation of blockchain technologies for the financial world.

The Pax Dollar token (“USDP”) is a cryptographic token, which allows financial market participants to transact in a crypto asset that has been strictly pegged 1:1 to the U.S. dollar by the Company. The Company maintains the reserves securing USDP in one or more of the following forms: (i) fiat currency held in FDIC-insured bank accounts; (ii) (a) investments (including through overcollateralized overnight reverse repurchase agreements) in debt instruments that are expressly guaranteed by the full faith and credit of the United States Government; and/or (b) money-market funds composed of such debt instruments. Amounts backed by debt instruments that are expressly guaranteed by the full faith and credit of the United States Government are subject to market pricing risk. In order to support overnight and weekend liquidity, the Company maintains balances in excess of FDIC insurance limits. The Company holds fiat currency at insured depository institutions in deposit placement networks operated by IntraFi Network LLC and/ or Reich & Tang Deposit Solutions, LLC wherein the totality of balances in these deposit networks are FDIC-insured<sup>3</sup>. Not all deposits are covered by the FDIC or private insurance and the Company may still incur losses in the event of a bank insolvency.

USDP is an ERC-20 token, which is built on the Ethereum public blockchain and as such, the total number of USDP tokens in circulation is fully and transparently viewable at all times by anyone through any publicly available Ethereum block explorer (e.g. Etherscan).

**2. DISCUSSIONS RELATED TO CRYPTO ASSETS GENERALLY**

As of the date of this report, crypto assets remain an evolving area of technology and market place activity. Those who choose to invest in crypto assets should inform themselves of the general risks and uncertainties associated with such assets.

(1) Crypto assets are owned anonymously. While the public keys of virtual wallets holding crypto assets reside on the distributed networks and can be viewed publicly, the ownership of the wallets are normally not registered and therefore, anonymous. Ownership of crypto assets is evidenced primarily by the possession of the underlying private key (e.g. passcode). The possessor of the private key controls the corresponding crypto asset wallet.

---

<sup>3</sup> A full listing of insured depository institutions of which deposits may be placed within each of these networks can be found at <https://paxos.com/2022/08/09/fdic-pass-through-insurance-disclosures/>

---

(2) Risk of irreversible transactions. Transactions for most crypto assets that occur over the blockchain are generally irreversible, even if such transactions occur fraudulently or accidentally. If a private key is lost or fraudulently used, the crypto assets in the corresponding wallet may not be recoverable.

(3) Regulatory uncertainty. Legislative and regulatory changes or actions at the state or federal level may change or affect the use, transfer, exchange, and value of crypto assets. The effects of any such changes are not determinable as of the date of this report.
